

Mobile Fingerprint Setup and Registration

Last Updated: 6.20.2018

1. Log into Online Banking

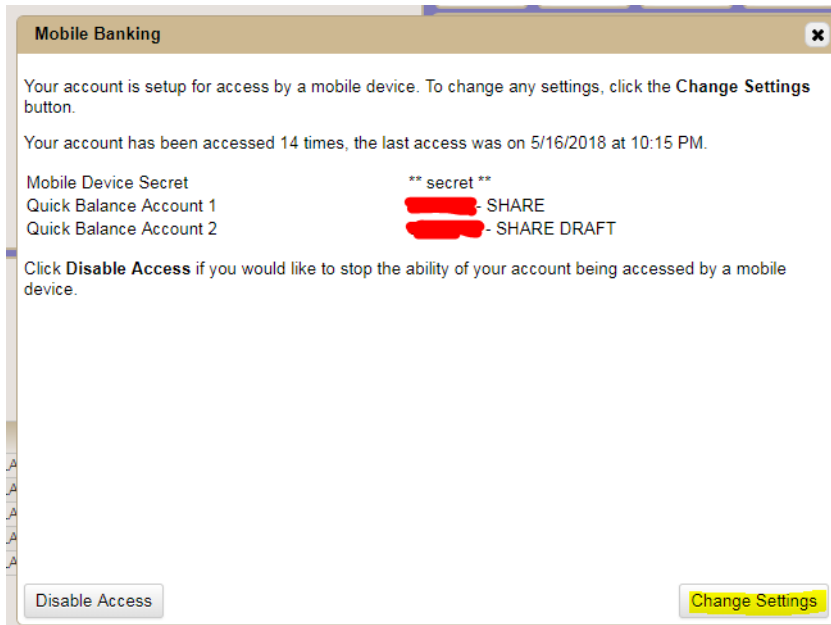

A screenshot of the online banking login page. It features two input fields: 'User ID:' and 'Password:'. To the right of the 'User ID:' field is a blue link that says 'Account Lockout Reset'. To the right of the 'Password:' field is a blue link that says 'Forgot User ID/Password'. Below the 'User ID:' field is a grey button labeled 'Login'. Below the 'Password:' field is a grey button labeled 'Sign Up'.

2. Click on the Mobile Setup Icons

3. On the Mobile Banking Popup select Change Settings.

4. Select 'Manage Fingerprint Authentication'

Mobile Banking

When you access your account with a mobile device you will need to provide your User ID and Password along with the secret code you enter here. Enter the secret code you would like to use. Please do NOT use your Account Number, User ID, or Password for your secret code. Using a combination of letters, numbers and mixed case, and a minimum of 5 characters will provide a higher level of security. You may enter up to 25 characters.

Mobile Device Secret: [password field] * Required
Confirm Secret Change: [password field]

When you access your account with a mobile device you may have up to two account balances displayed immediately upon login. Choose the account(s) you would like to display at login. This is an optional setting.

Quick Balance Account 1: [dropdown menu] - SHARE
Quick Balance Account 2: [dropdown menu] - SHARE DRAFT

If your mobile device supports fingerprint authentication, you can manage access to your account on mobile using your fingerprint to log you in.

[Manage Fingerprint Authentication]

[Save] [Cancel]

5. Select 'Setup New Authentication'

Mobile Banking

Device	Hookup Date
--------	-------------

To enable logging in on a mobile device with your fingerprint, click the **Setup New Authentication** button, then log in normally on your mobile device and follow the steps there to authorize the device.

[Setup New Authentication] [Finished]

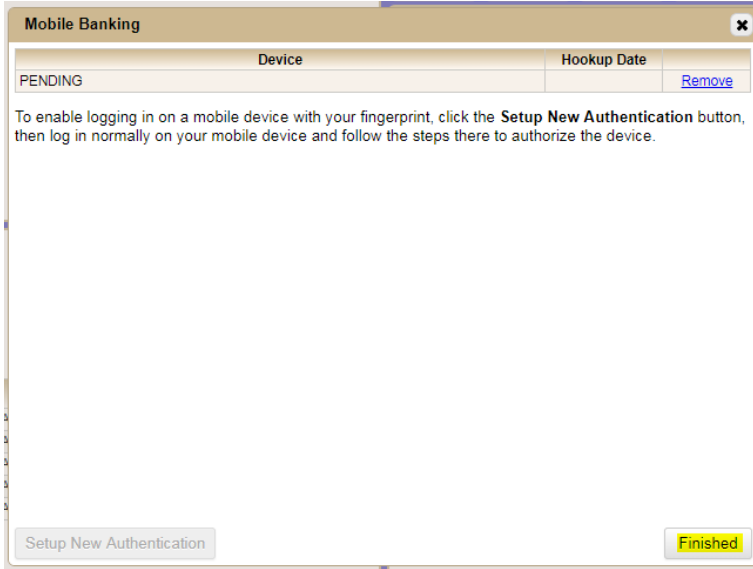

6. You will now see a Pending Device

Mobile Banking

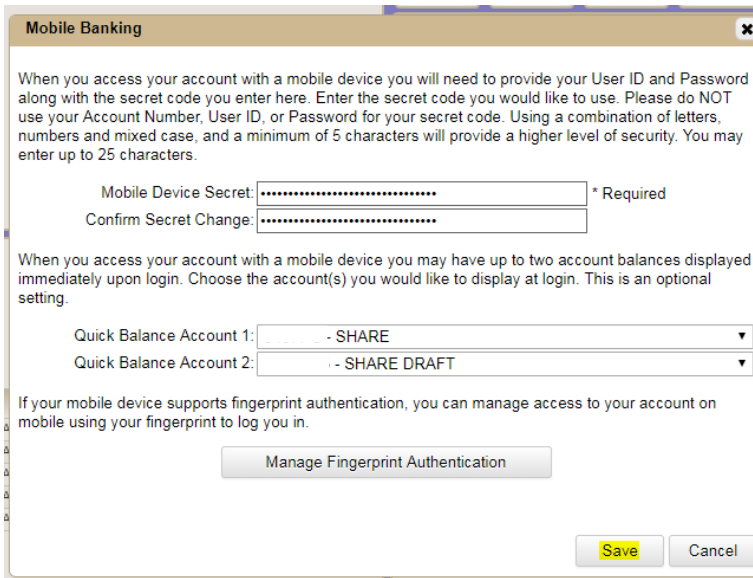

Device	Hookup Date	
PENDING		Remove

To enable logging in on a mobile device with your fingerprint, click the **Setup New Authentication** button, then log in normally on your mobile device and follow the steps there to authorize the device.

7. Select 'Finished'

8. Select 'Save'

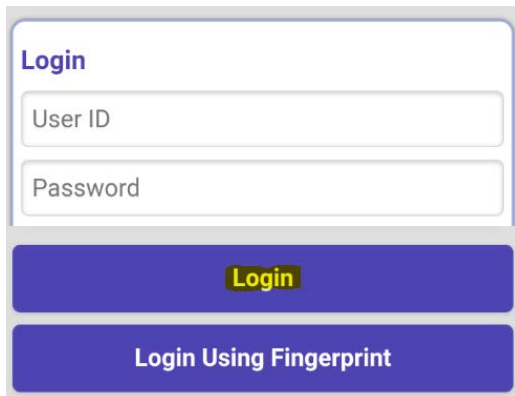

9. Close the Mobile Banking popup and log out of Online Banking.

10. Go to the Online Banking Mobile App on your phone.

11. Click the Mobile Banking Login Button

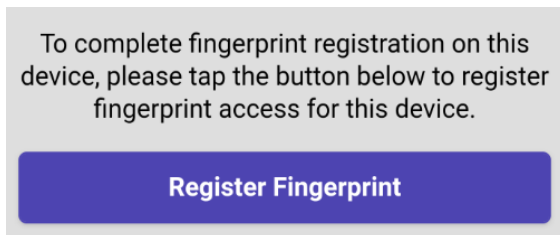

12. Enter your Username, Password, and Secret

13. Click 'Login'

The image shows a mobile banking login screen. At the top, the word "Login" is displayed in blue. Below it are two input fields: "User ID" and "Password". Underneath the input fields are two blue buttons. The top button is labeled "Login" in yellow text, and the bottom button is labeled "Login Using Fingerprint" in white text.

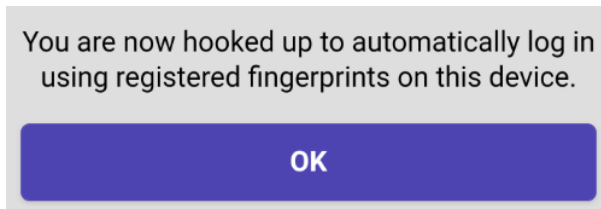

14. Select the 'Register Fingerprint' button

The image shows a grey rectangular box containing text: "To complete fingerprint registration on this device, please tap the button below to register fingerprint access for this device." Below the text is a blue button with the text "Register Fingerprint" in white.

15. Follow phones prompts to scan your finger.

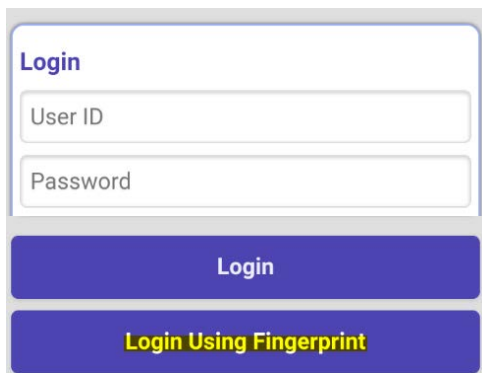

16. Once finger has been scanned the phone will take you to a confirmation page. Click 'OK'.

The image shows a grey rectangular box containing text: "You are now hooked up to automatically log in using registered fingerprints on this device." Below the text is a blue button with the text "OK" in white.

17. You will now be taken into your Accounts.

18. Congratulations! You have now set up your Fingerprint for Mobile Banking Login! Upon the next login, Click the 'Login Using Fingerprint' button and scan your registered finger. No username or password needed!

The image shows a mobile banking login screen, similar to the one in step 13. At the top, the word "Login" is displayed in blue. Below it are two input fields: "User ID" and "Password". Underneath the input fields are two blue buttons. The top button is labeled "Login" in white text, and the bottom button is labeled "Login Using Fingerprint" in yellow text.
